* DAYS OF OUR TRIBES.....a continuing soap opera..

..A lot of people were bumping into each other as they scrambled to come out from under the big top tent to see the white beam of light. All eyes were held fixed on the kidney shaped space craft hovering over the crowd. Cactus and Turnip couldn't believe their eyes..what they were seeing, was it **REAL**? Within a flash, the beam of light searched the crowd and settled on Garfield Plenty Hoops..in the next instant he was gone and so was the space craft. The shocked crowd was a buzz with talk over what had happened. Surprisingly, everyone returned to their seats as if they awaited someone to explain what just went on.

Cactus felt an obligation to take over the responsibilities of his just vanished uncle. In a calm voice; but nervous manner he approached the box platform and proceeded to talk about the power of the unknown. After 45 minutes, Cactus felt comfortable enough to ask for donations to assist in the search of his Uncle Garfield. Turnip, Dumplings, and Peaches walked throughout the aisles to collect together a \$214 contribution. As the crowd started to scatter, thoughts of how and what should they do to find Uncle Garfield was the question on their minds.

Their thoughts were temporarily interrupted by the blare of the Burleigh County Sheriff's squad car. They were investigating a rumor lights and UFO's on the east end of town which led them to this location.

As the amazing story is retold the baffling conclusion is obvious; these students have either gotten some bad smoke or they're concealing a jug somewhere. Cactus, Turnip, Peaches, and Dumplings are all escorted to the police station.....stay tuned, next week.
