LEARNING TO ADJUST

by Kathy Zachmeier/The Forum

TIPS FOR NEW COLLEGE STUDENTS:

GO TO YOUR SCHOOL'S ORIENTATION. YOU'LL MEET PEOPLE AND LEARN A LOT ABOUT THE PLACE.

GET HELP EARLY. DON'T WAIT UNTIL YOU'RE TOO FAR GONE.

PERSONALIZE YOUR LIVING SITUATION. MAKE IT A PLACE YOU WANT TO BE.

KEEP AN OPEN MIND TO NEW IDEAS. DON'T BE QUICK TO JUDGE.

EVERYTHING IN MODERATION! STUDY....WORK....SOCIALIZE.

LEARN TO MANAGE YOUR TIME. THINK OF SCHOOL AS YOUR JOB.

KNOW THAT IT'S NORMAL TO FEEL UNCOMFORTABLE.
YOU'LL ADJUST!

The UNITED TRIBES TECHNICAL COLLEGE NEWSLETTER is an on-campus publication of the United Tribes Technical College, 3315 University Drive, Bismarck, North Dakota 58504. Phone: 701-255-3285, EXT. 227.
SUPERVISORS: David M. Gipp, President
Bennett Yellow Bird, Vice-President
EDITOR: Mary Lemcke
PRINTER: Terry Lewis
CONTRIBUTORS: Faculty, Staff, and Students of UTTC

Thank you to Kathy Aller for providing this contribution to the readers of the NEWSLETTER!

The Box Shop/Perfect Party Store, located at 16th Street and Broadway in Bismarck gives a 10% DISCOUNT to UTTC Staff and students on everything it stocks for parades, parties, and special occasions!

Cafeteria Noon Menu:	
Dates:	Sept. 23 to Sept. 27
Mon.-	Burritos
Tues.-	Pork Cutlets
Wed.-	Hamburgers on a Bun
Thurs.-	Chuck Wagon Stew
Fri.-	Chicken Nuggets

ATTENTION, THOSE STUDENTS WHO NEED THEIR G.E.D.! It is essential that you make arrangements IMMEDIATELY to take the G.E.D. tests you have not yet passed! Federal laws governing institutions of higher learning do not permit students who do not have high school diplomas or the G.E.D. to enter college; if you do not have your G.E.D. or high school diploma you place your PELL Grant into serious jeopardy, AND RISK BEING DROPPED FROM SCHOOL.

The G.E.D. tests are administered in Bismarck at the ADULT EDUCATION RESOURCE CENTER at 210 West Bowen. The tests are given on the following schedule: TUESDAYS, 1-5 PM; WEDNESDAYS, 9AM - 1PM; THURSDAYS, 6-10 PM.

Tutoring, pre-testing, and scheduling for the G.E.D. tests can be obtained on the campus of UTTC in the English area of the Education Building, downstairs. Please contact Mary at EXT. 227. Tutoring for the G.E.D. can be scheduled around your other classes on TUESDAYS AND THURSDAYS. CALL TO SCHEDULE YOUR SPECIFIC TIME - OR STOP IN AND MAKE ARRANGEMENTS TO BE PLACED ON A SCHEDULE. You MUST be scheduled for a specific time. Just dropping in any old time now and then for a little pre-testing or tutoring here and there just won't cut it. The G.E.D. time must be taken as seriously as a class!

FROM PAM CARLASCIO

AUTO TECH TIP
By Joe Helmer

WHAT EXACTLY IS A TUNE-UP? A new set of spark plugs, a timing and idle-speed check, and a new air filter? Ask a dozen people and you'll probably get a dozen different opinions.

Webster's Dictionary defines a "tune-up" as "an adjustment to assure efficient functioning". The question is, what does all that include? And how often is it necessary?

The problem is that there is no simple, single definition for a tune-up today. It means different things to different people. To add to the confusion, you can't find any references to what a tune-up is or how often it's supposed to be performed in any of the owners' manuals for late model vehicles. For all practical purposes, it has ceased to exist!

The only things the original equipment vehicle manufacturers discuss in their owners' manuals are recommended replacement intervals for certain ignition components, filters and lubricants, and recommended inspection on OTHER items (like belts, hoses, coolant, timing belts, brakes, etc.) But there's no mention of anything called a "TUNE-UP".

Today's "tune-up" is a highly-evolved species that has changed to keep pace with the technological advances that have taken place under the hood. Recognizing this fact, the National Institute for Automatic Service Excellence (A.S.E.) changed the name of its tune-up test years ago to "ENGINE PERFORMANCE" TEST. Today, TODAY'S tune-up is often referred to by technical trainers and other service specialists as an "ENGINE PERFORMANCE DIAGNOSIS/PREVENTATIVE MAINTENANCE" SERVICE. Sounds pretty overwhelming, doesn't it? That's why most of us still call it a tune-up! The term is shorter, easier to remember, and commands instant consumer recognition even if nobody's quite sure exactly what it means! Yet, in spite of the differences of opinion, we all have a "gut feeling" for the kinds of things a tune-up is supposed to include.

Talk to you again,

A/E

AUTO TECH TIP is a new feature of the NEWSLETTER, and will be appearing in every issue. Special thanks to JOE HELMER for his time and expertise!

 UTTC NEWSLETTER CLASSIFIED ADS- FOR SALE - BARGAINS!

FOR SALE: Ricoh KR-30 with Program and Manual Modes; 35 mm - 50mm - 70mm removeable lens. Also: strobe light for flash photography, automatic winder (advances the film automatically when one wishes to shoot in rapid sequence), and Tamron telephoto lens that moves telescopically from 70mm to 210 mm. In place on the equipment is also a lens filter and all necessary batteries. The camera is ready to GO! It shoots from 25 ASA film up to 3200 ASA.

There is absolutely nothing wrong with this camera. I've gotten some spectacular pictures with it, especially at professional boxing matches and other athletic events (due to its being able to shoot with very fast film). I'm selling it because someone bought me a Nikon that does EVERYTHING AUTOMATICALLY, and I've grown too lazy to set the ASA's and focus the lenses! (Now, that's lazy!) I paid over \$800.00 for this

photography equipment and it's still very new. I'll sell lens, etc. separately so price will be discussed if you want to know about the whole outfit or just the lenses, etc. This is not a bargain-basement item, but IT IS A VERY GOOD CAMERA - AND IT'S BEEN BABIED! You might find a lower price at a pawn shop or a camera shop that has used equipment, but you won't be sure there if you're getting someone else's trouble or not. Call: EXT. 227.

FOR SALE: Columbia 10Speed mountain bike. NEW!! Only \$55.00. Call: EXT. 245.

FOR SALE: Fine quality turquoise jewelry from the American Southwest. Call: EXT. 294.

 TRIVIA! TRIVIA! TRIVIA! TRIVIA! TRIVIA! TRIVIA!

There are NEW RULES in effect for this year's Trivia Game! Only ONE WINNER will be the recipient of the week's trivia game prize - and Trivia Questions can only be answered from 4 PM - 4:30 PM on the day the NEWSLETTER comes out. This will give everyone a better chance to win if guesses can be made after the NEWSLETTER is distributed throughout the campus.

Prizes for Trivia will change now and then - there may be movie tickets one week and 6-packs of soda the next - an art print one week, and a book the next.

Answers can still be called in to: LOIS LANE AT EXT. 227.

After ALL THAT, are you ready to play a game? Here's the question for this week:(It's in two parts)!
 a. We've all seen turquoise jewelry! But do you know what the mineral source is for the gem? b. What other blue semi-precious stone (worn by the ancient Egyptians) looks a bit like turquoise but is from silicate with flecks of iron pyrites? CALL NOW!
