DEDICATION OF JAMERSON ELEMENTARY SCHOOL

By Melva Iron

The dedication for the Elementary School was held on Friday, February 23, at 3:00 p.m. in the Jamerson Elementary School. The students and staff were excused for the day, so that they could attend.

Warren Means was there, along with other guest speakers, representing different tribes.

The first speaker introduced was Claude Red Tail Longie from Fort Totten. He opened the dedication with an Indian prayer in his own Sioux language. Then an Indian version of the national anthem was sung by the Fort Berthold Tribal Council Members.

Mr. Wyman Babby, Area Director of BIA, was the guest speaker. He revealed ideas concerning the Indian people to invest their future into the elementary students of today. He encouraged all Indian people to become active and participate in activities and be more aware of our Indian future heritage to be more incentive.

Then Aljoe Agard, Tribal Judge for Fort Yates, spoke about Mr. Jamerson as being a cog in the wheel in implementing and developing United Tribes as an experimental program with the help of the other tribes.

This was followed by a speech given by Mr. Art Link, Governor of N.D. He said, "his office doors were open to all those who wanted to better themselves."

Then Warren Means presented the Governor with a beaded neck-tie, as a tie between United Tribes and the Governor's office.

He also awarded Theodore Jamerson (Tiny Bud) a peace pipe. A plaque dedicating the new school in Mr. Jamerson's honor will hang in the school. The Student Body also gave Governor Link a beaded neck-tie. They gave Mr. Jamerson (Tiny Bud) a statue of "The End of the Trail." After the presentation, Theodore Jamerson gave his speech and said, "his dream has finally come true." "A dream that will make a future heritage proud." He concluded his speech by saying, "I thank everyone who has made this day possible. I feel like one of the prisoners coming home from war, God Bless America!"

After the dedication, refreshments were served and everyone visited and toured the school and had a good time.

GIRL'S DORM

By Audrey St. Clair

The girl's dorm shares a building with the Child Development Center. CDC has the main floor and the dorm is located on the second floor.

At the present time there are 20 girls living there with 2 or 3 girls to a room. Full capacity would be 30 girls.

Dorm Counselor, Barb Jacobs, previously attended North Dakota State University in Fargo and worked on Center for 6 months as a graduate student with the Action Program. She is originally from Amidon, North Dakota.

For girls who wish for more responsibility, they are given jobs such as bed check or ordering supplies, etc.

Girls are also given the responsibility of a detail. These consist of taking care of lounges, mopping floors, washing sinks,

mopping the shower room, and cleaning the stairways. By doing these details, the girls make the dorm a better place to live.

The girl's dorm now has two lounges. The main lounge has a color television with a refrigerator, table set, and one couch and two relaxing chairs. It is used mainly for the visitors.

The other lounge is used for meetings. It consists of two couches, two relaxing chairs and a black and white television.

The dorm also holds a dorm government meeting every Wednesday night at six. At these meetings, the girls talk about what rules are made for certain things. Fines are collected from girls for missing a detail. They are asked what they would like to get with the money that is collected from the fines.

With all the girls working together, they make the dorm a very good place to live.

## PATRICK JOHN JOHNSON

By Antoinette LaFromboise

Pat is originally from Bismarck, ND. He attended college at Bismarck Jr. College in 1967 and 1968. He attended the University of Northern Colorado and received his Bachelor of Arts Degree majoring in Psychology and Political Science. He also started work towards his Masters Degree in Counseling and Guidance.

He is single and his hobbies are skiing, horseback riding, and reading.

Before coming to UTETC, he worked with Spanish people in Denver. He came to UTETC in 1971. He was a teacher in the New Careers Program before starting in Personal Development.

He feels there are so many meaningful things to learn here at the Center for non-Indian people.

He would very much like to see the people of the world working together with a little more love in their hearts for their fellow man!

## RAY PATNEAUD

By Eldon DeNoyer

Ray Patneaud came to UTETC in June of 1972 as the Automotive instructor. He has had his education and training at the Haskell Institute, Lawrence Kansas; General Motors Training Center, Burbank, California.

He has been a mechanic for about the last 12 years and some of his comments on the automobile industry are that because of the vast improvements in design of the automobile today, it would be impossible for any one man to maintain all the day-to-day and year-to-year changes in all areas of mechanics; therefore, for better services the future mechanic will become specialized. A skilled mechanic can gain employment anywhere in the country.

When asked his views on women mechanics he said that some of the best mechanics are of the "weaker sex." California, in particular, is employing lady mechanics in their shops for lighter chores--they are good for business and they tend to do neater work.
