Scattered Seed

Scattered seeds are in your heart,
to cultivate and grow
And the choice is yours to make,
my friend, of which seeds to sow.

There are the seeds of righteousness
and good will to man,
Malignant seeds of evil
that everyone should ban.

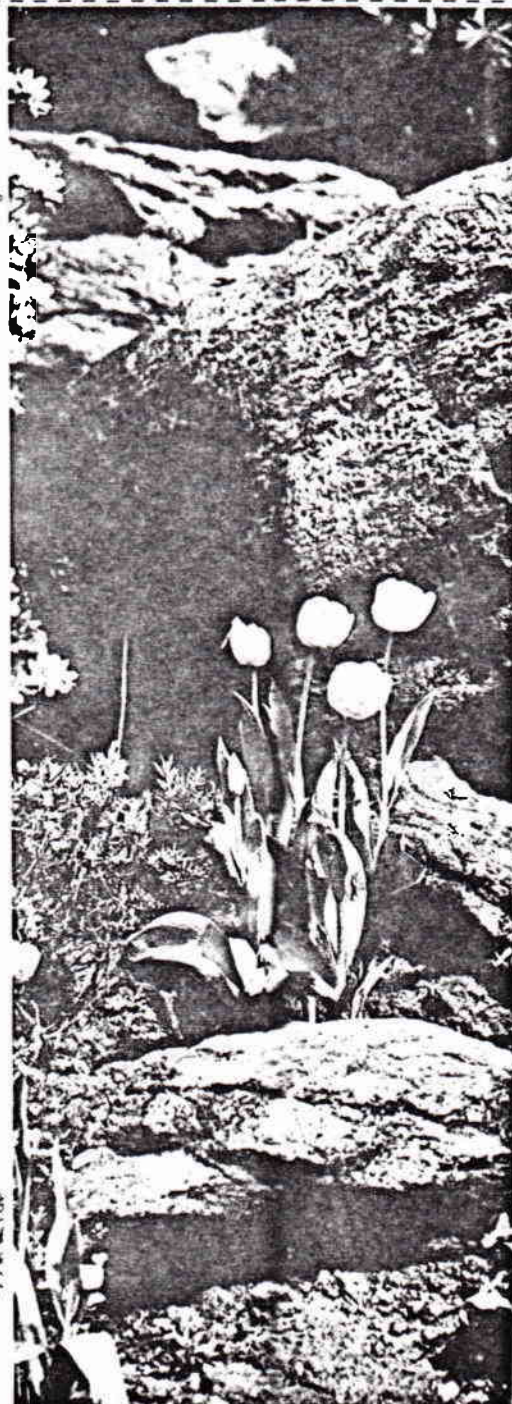

They are but tiny little pods
but my how they expand,
With a little cultivating
in the heart of man.

Sow the seeds of goodness
and watch the blossoms grow,
Spreading joy and gladness
wherever you may go.

But, if you sow the evil seed
your heart it will enfold,
Ugly and malevolent,
destroy your very soul.

Sow the seeds of kindness,
don't grow an ugly weed.
But reap the fruit of virtues
from the scattered seed.

MATURITY

MATURITY is the ability to control anger and settle differences without violence or destruction.

MATURITY is patience. It is the willingness to pass up immediate pleasure in favor of long-term gain.

MATURITY is perserverance, the ability to sweat out a project or a situation in spite of heavy opposition and discouraging setbacks.

MATURITY is the capacity to face unpleasantness and frustration, discomfort and defeat, without complaint or collapse.

MATURITY is humility. It is being big enough to say, "I was wrong." And, when right, the mature person need not experience the satisfaction of saying "I told you so."

MATURITY is the ability to make a decision and stand by it. The immature spend their lives exploring endless possibilities, then they do nothing.

MATURITY means dependability, keeping one's word, coming through in the crisis. The immature are masters of the alibi. They are the confused and disorganized. Their lives are a maze of broken promises, former friends, unfinished business and good intentions that somehow never seem to materialize.

MATURITY is the art of living in peace with that which we cannot change.

TWENTY-SEVEN INCHES

Twenty-seven inches of snow together with high winds gave UTETC students an extra two-day Easter vacation. However, most students were snowed-in on Center.

Most of the staff were forced to take annual leave or borrow on "comp" time. The Security, Maintenance, Finance and Cafeteria staff worked during the blizzard.

This issue of the KEYAPI is late, and the March graduation ceremonies scheduled for March 27 had to be postponed until April 1.

Snowmobile sport enthusiasts are taking their last fling (I hope) of gliding over the snow drifts.

With the help of Mr. Sun, people are slowly getting plowed and shoveled out, so things should soon return to normal.

Graduation

Due to the late March blizzard, the March graduation was postponed until Tuesday, April 1, with the Adult Education Department in charge of arrangements.

Executive Director, Warren Means, gave the graduation address and presented the diplomas to the seven graduates listed below:

STUDENTS MET WITH LUTHERAN CHURCH MEMBERS

On March 16, four UTETC students from Human Services class went to a local home to meet with members from First Lutheran Church here in Bismarck.

One of the reasons for inviting us was to learn more about the Indian Cultures.

Even though we as a small group didn't represent all the tribes here at UTETC, we tried to answer their questions to the best of our ability.

Many of their questions were things they had heard before and thought they were true, such as:

"Does every Indian receive a monthly check from the government?"

"Why don't you see many elderly Indian people in the rest homes?"

We tried to clear up their ideas to questions they asked such as the ones mentioned.

During the meeting we also discussed subjects ranging from spiritual beliefs to politics on the reservations.

The students who attended the meeting were: Mike Murphy, Terry Murphy, Rosalind McHugh, Sheila Kills Enemy, and our instructor, Jack Sauter.

Dr. Donald Hastings was in charge of the meeting and refreshments were served after a long discussion.

Greatest Ability

I have met a great many people who said, "I haven't ~~any~~ ability." I have always told them that *they* didn't have to have ~~any~~ ability—that God has enough for both of them. The greatest ~~ability~~ anybody needs, the average man can have. The greatest ability is ~~dependability~~.

RODEO CLUB

By Ray Hawk

The first Rodeo Club Meeting was held Monday, March 24.

In order for UTETC to have a successful rodeo club, we need a lot of interested people to join the club.

There are a lot of summer activities planned for the rodeo club. But we cannot have any of these without student participation. So please plan to attend the next meeting.

An Alcoholic Rehabilitation Center in Paterson, NJ, is located at the intersection of Straight and Narrow Streets.

NEWS FROM THE STUDENT GOVERNMENT

By Eugene Four

The Student Government is getting jackets for the students who are graduating. The jackets will cost \$11.00. The Student Government is paying half and the Center is paying the other half. The jackets will be in the school colors--red and white. The letters will be white. The lettering will be put on them which will be the United Tribes Employment Training Center. We think this is a good graduation present, which the student will surely appreciate.

Another thing I'd like to bring up, is that the Student Government has a meeting every month and we would like to see all the members of the Student Council attend, as well as other interested students.

We have meetings any time some kind of a problem comes up that we have to discuss, like for instance we had a meeting with Mr. Warren Means regarding the Easter holidays. Mr. Means agreed for Friday and Monday off for the students, which was good of Mr. Means. But the students will have to be in class Tuesday morning.

TO THE AA COUNSELORS

Just wanted to let all of you know that I enjoyed coming down to building 61, for AA counseling, it helped me quite a lot. I can't say that I quit drinking, I know its not easy, but trying is better than nothing.

I know now that its really my fault that I've lost my kids, and I've had this on my mind for quite some time, maybe thats why I'm finding it hard for me to concentrate on my work and my friends, but really don't have anybody to blame but myself.

Sometimes when I would be at the dorm I would just sit and think of all the hardships I put my children through, I even remember at times when I used to leave my children at a babysitters or with anybody who would watch them, and they would cry for me and tell me not to leave them, but I guess alcohol had its power over me because I would leave them for days at a time and I wouldn't even try to see them, which was the cause of them being taken away from me, so when I lost them I guess I finally came to my senses for sometime till I got them back again, but in the end only lost them again due to my drinking.

Now that I've hadn't had them for a while, I really done some serious thinking and decided to terminate myself, because I would really like to try and get my children back, I know they miss me a lot, and I really miss them too.

Maybe in the future months to come I will try to reapply and come back, this time with my children, which will be the happiest time in my life just to be near them again, but I will take one day at a time and not plan that far ahead, no one never knows whats going to happen in the days to come.

Well once again thank you very much for all you did for me, I've really enjoyed being with you, even if it was for only one hour every day, it really has helped me quite a lot.

So good-bye Ozzie, Trudy, and Russell, and God Bless.

God made women a little beautiful, so men would love them; and a little dumb so that they would love men.

A CHILD'S CRY

By Rose Bearchum

Wylie Big Eagle will be conducting the activities for the students at the Elementary school this summer.

In February, a group of college student teachers came down from North Dakota State to listen and understand the needs of our children and other children across North Dakota schools and what we think is the most important need in our school.

You know as parents it is sometimes hard to give every child the individual attention he or she usually needs, especially during the summer. And we as parents go to school all summer.

So now with Wylie Big Eagle and others, we can plan a way for our children to spend their time constructively without glue sniffing and jumping fences to have fun here on Center.

Parents, who are interested in their children's activities and school, please come and give your ideas.

Remember only we as parents with the teachers can help mold these children into citizens of tomorrow.

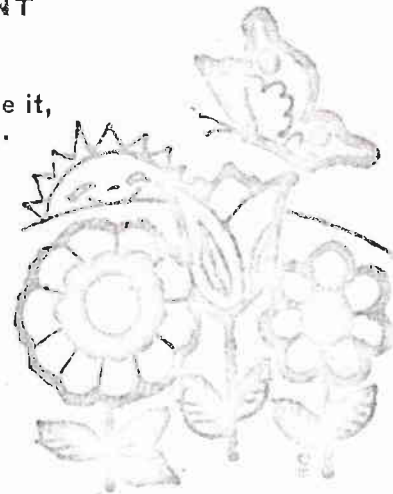

We want to see your ideas Parents!!
