

UNITED TRIBES BOARD OF DIRECTORS

This chronologically arranged list identifies the founders and leaders who served on the United Tribes Board of Directors since its inception in the mid-1960s. These individuals were visionaries and decision-makers, vested with voting rights on the ultimate policy-making body of the organization. They were the elected chairpersons of a tribe, an elected member of a tribal council specifically designated by a council to serve on this board, or an individual designated to represent a member who could not attend a meeting. The date indicates their approximate start on the board. Some served for many years following the date listed. United Tribes Technical College is grateful for their service and deeply appreciates the sacrifices they and their families made in helping UTTC become a place of safety and success for Native People.
